Venera Pavone

I'm highly interested to this workshop because behind the interest towards the Urban planning and Design, I think that this is a valid initiative to improve people life in a difficult urban area, and especially for this reason I'd feel proud of being part of this project.

My interest on the planning and design field started with my University career during which I dedicated lot of time to develop projects, by reaching very good results on each University examinations and by going in details on this field for my personal growth.

I feel motivated to participate to this workshop also because I'd like to live a work experience abroad, in order to compare my skills with the others, to learn new way to approach the Urban planning and design field and to share my knowledge and skills also on the graphic design.

For the reasons described above I really feel to be the right candidate for this important project.

I'm confident that this can be a very good opportunity to improve my knowledge and to find new, valid material for the foundation of my thesis.

I didn't yet decide the topic of my Thesis but probably it will be the requalification of existent buildings, or Urban planning.

So I still miss the name of the advisor.

Venera Pavone, born in Acireale on the 17<sup>th</sup> of May, 1989.

High school graduation in the 2008 with 100/100, Liceo Scientifico;

In the year 2008 I start my University career.

34 examinations conclude up to date with an average valuation of 28/30, 6 examination still remain.

On the Planning and building Design field I sustained examinations with high valuation:

Pianificazione Territoriale → 30/30;

Laboratorio di pianificazione territoriale → Ottimo;

Tecnica urbanistica → 30 e lode/30;

Laboratorio di tecnica urbanistica → Ottimo;

Ergotecnica edile → 28/30;

Architettura tecnica 1 → 30/30;

Architettura tecnica 2 → 28/30;

Lab. Architettura tecnica 1 → Ottimo;

Lab. Architettura tecnica 2 → Ottimo;

Informatica grafica → 30/30;

Fisica tecnica → 27/30.

I understand, write and speak English;

I attended a workshop on the requalification of Macconi area in Acate;

I also attended some important Conferences on the Urban planning in Catania.

I personally participated to valid projects, that you can find here attached.
