

La vita e le opere dell'ing. Eduardo Torroja

Convegno e Mostra Iconografica

Catania, 20 maggio 2004

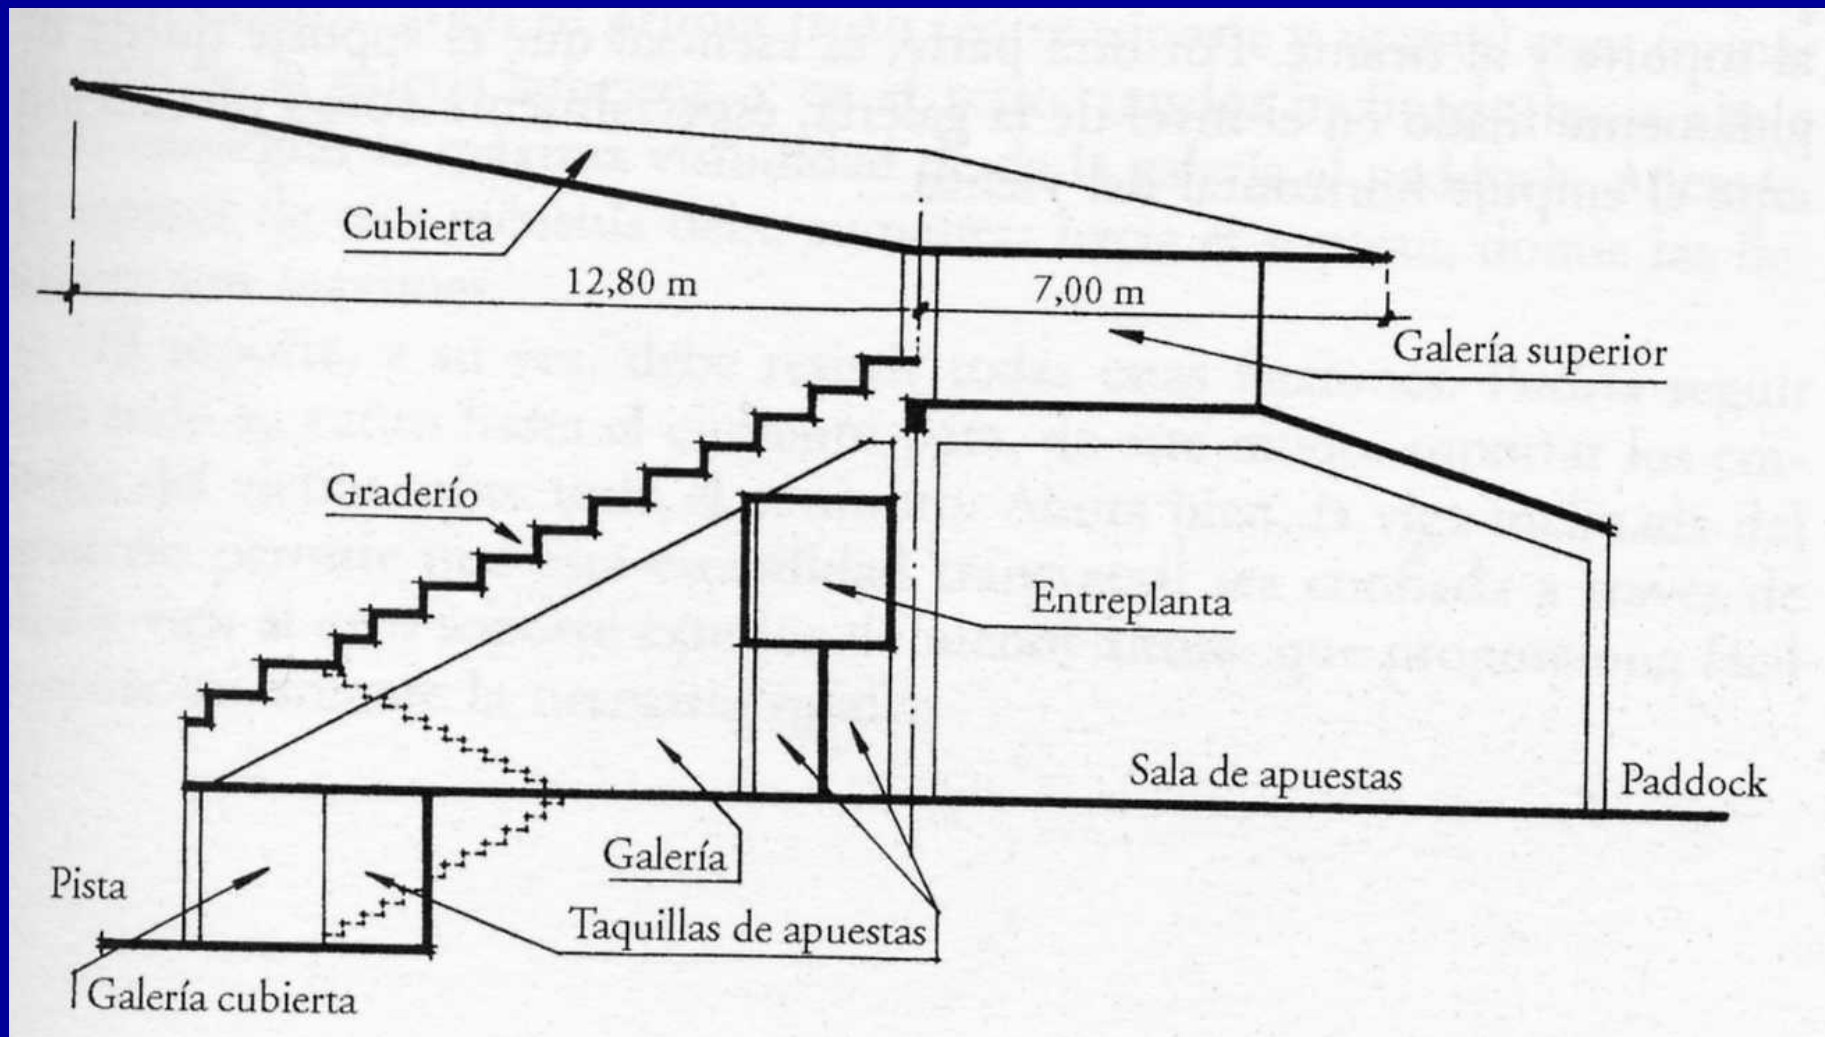

Aurelio Gheresi

Hipódromo de la Zarzuela

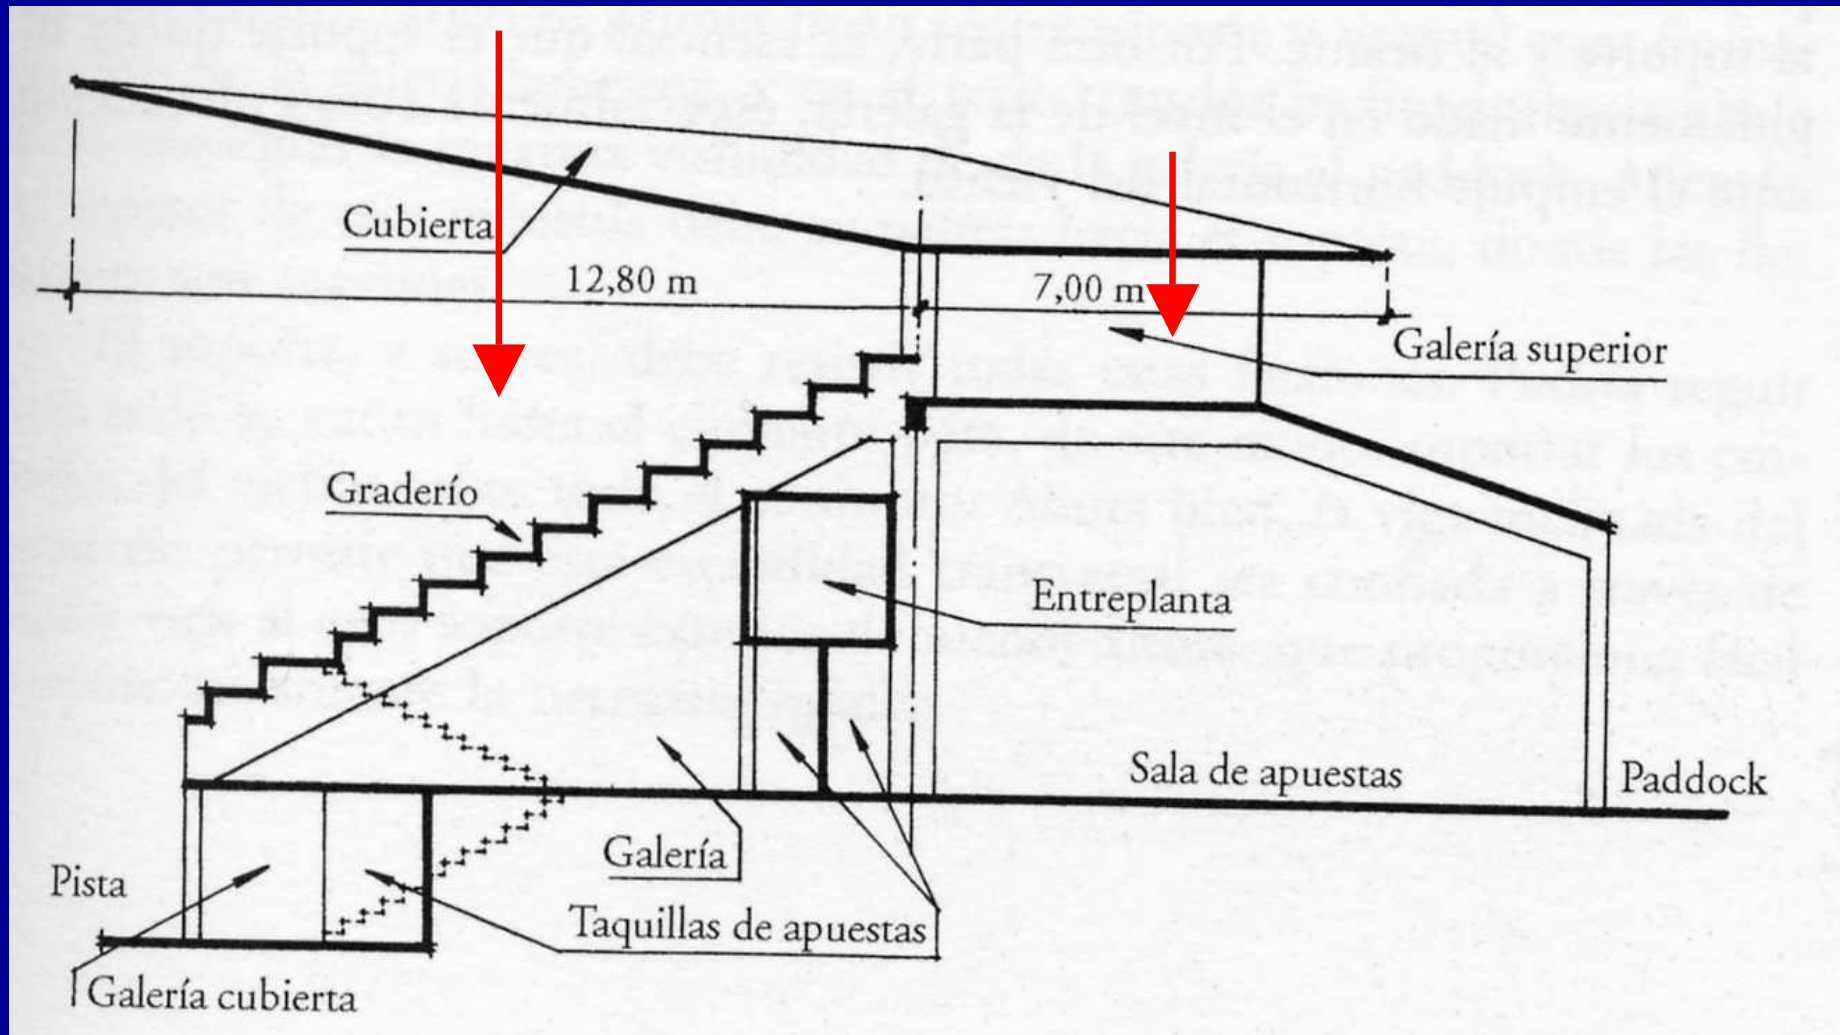

Come nasce un progetto?

Organizzazione funzionale

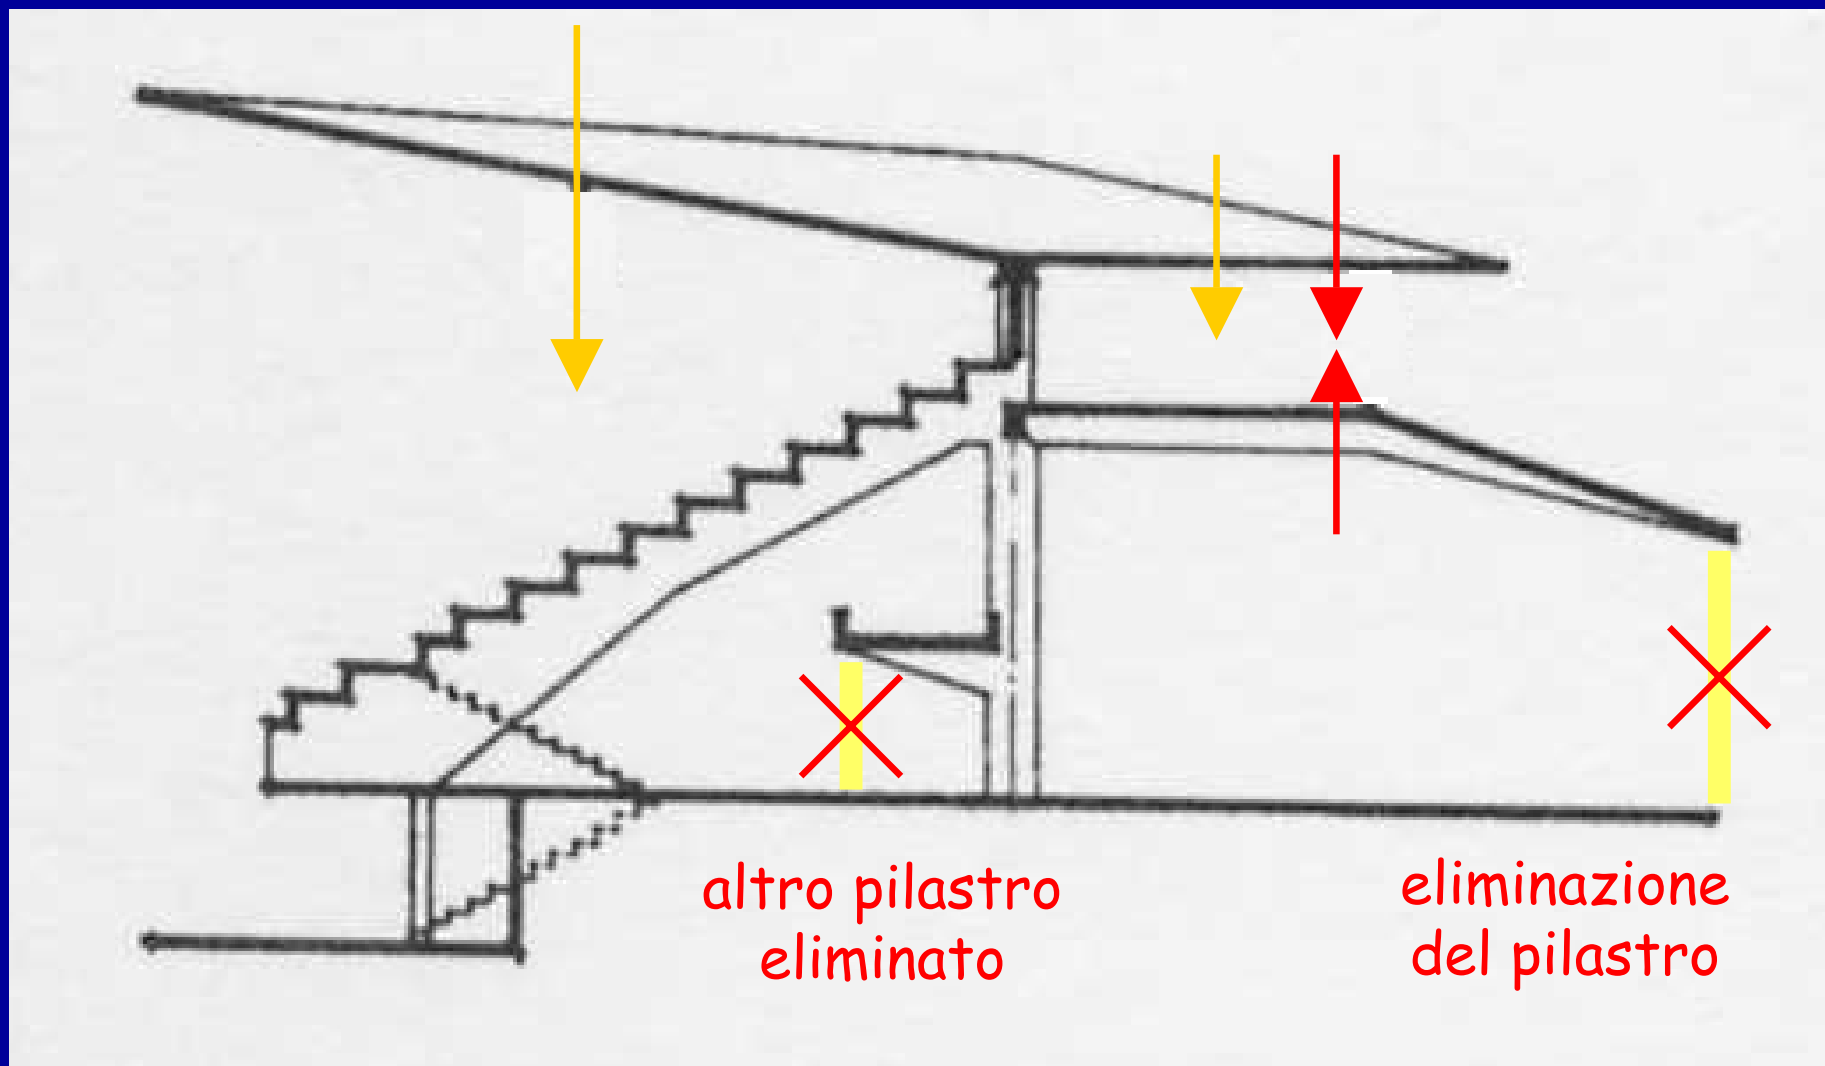

Problema: carico non equilibrato
sulla copertura

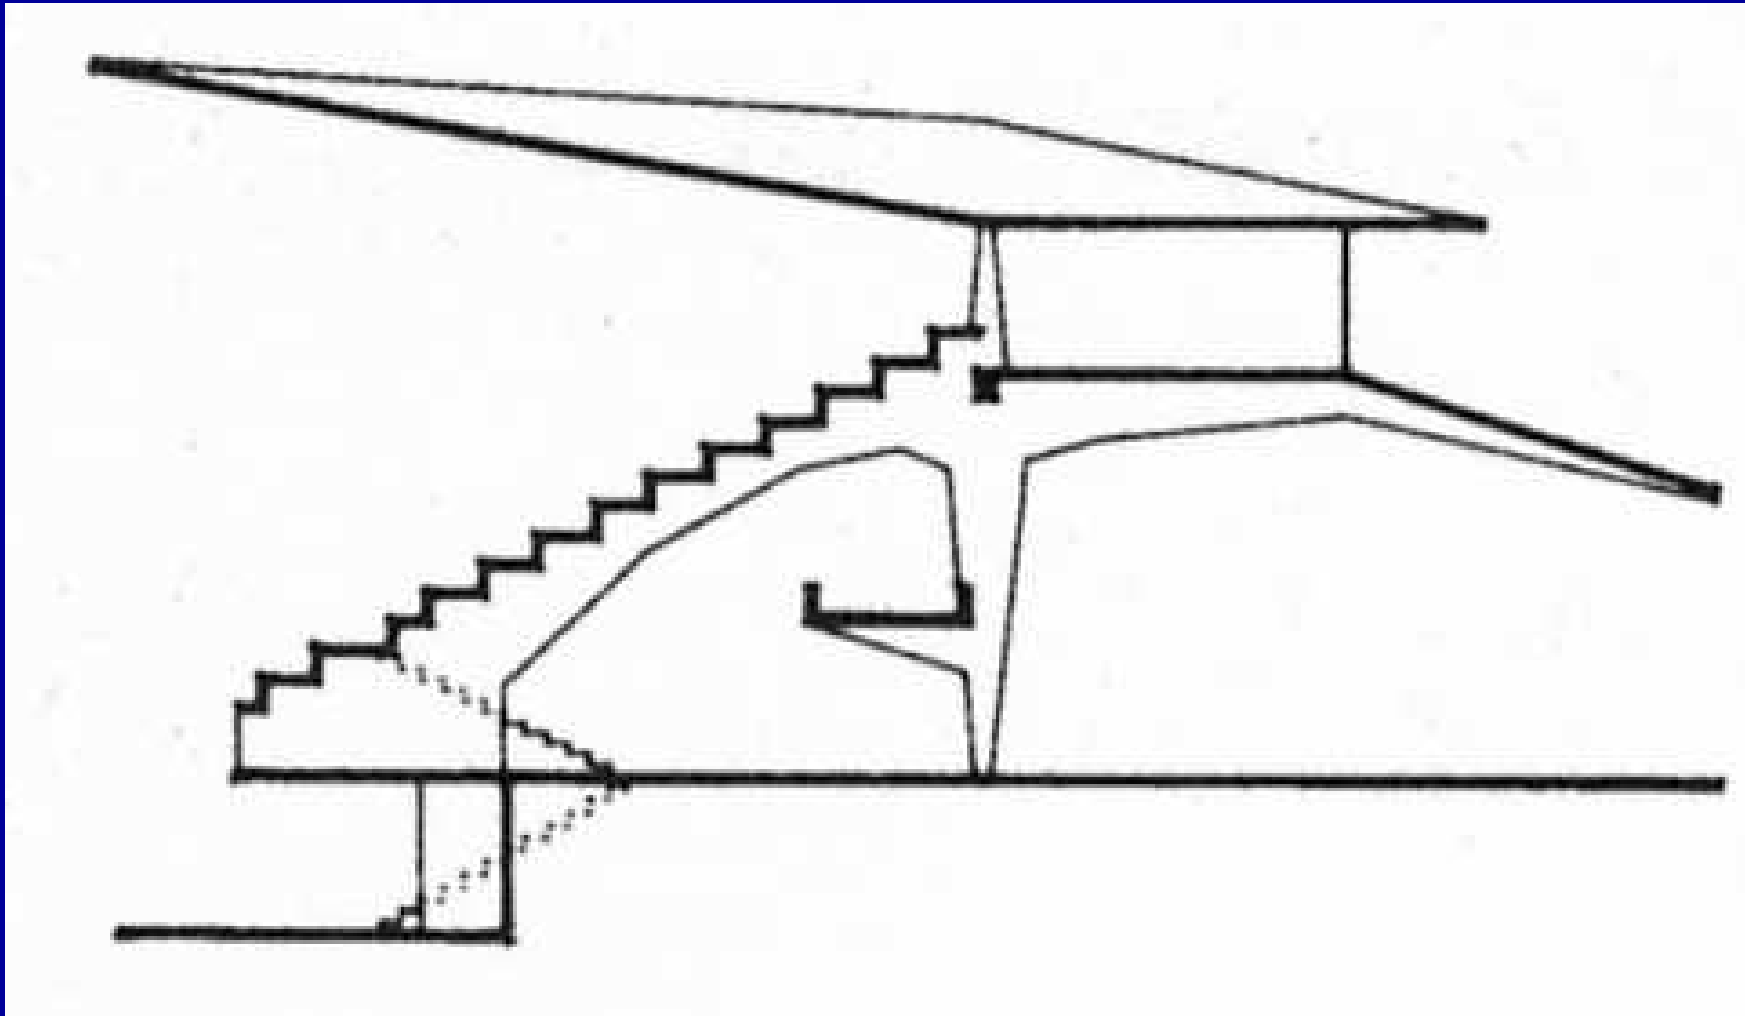

Idea:

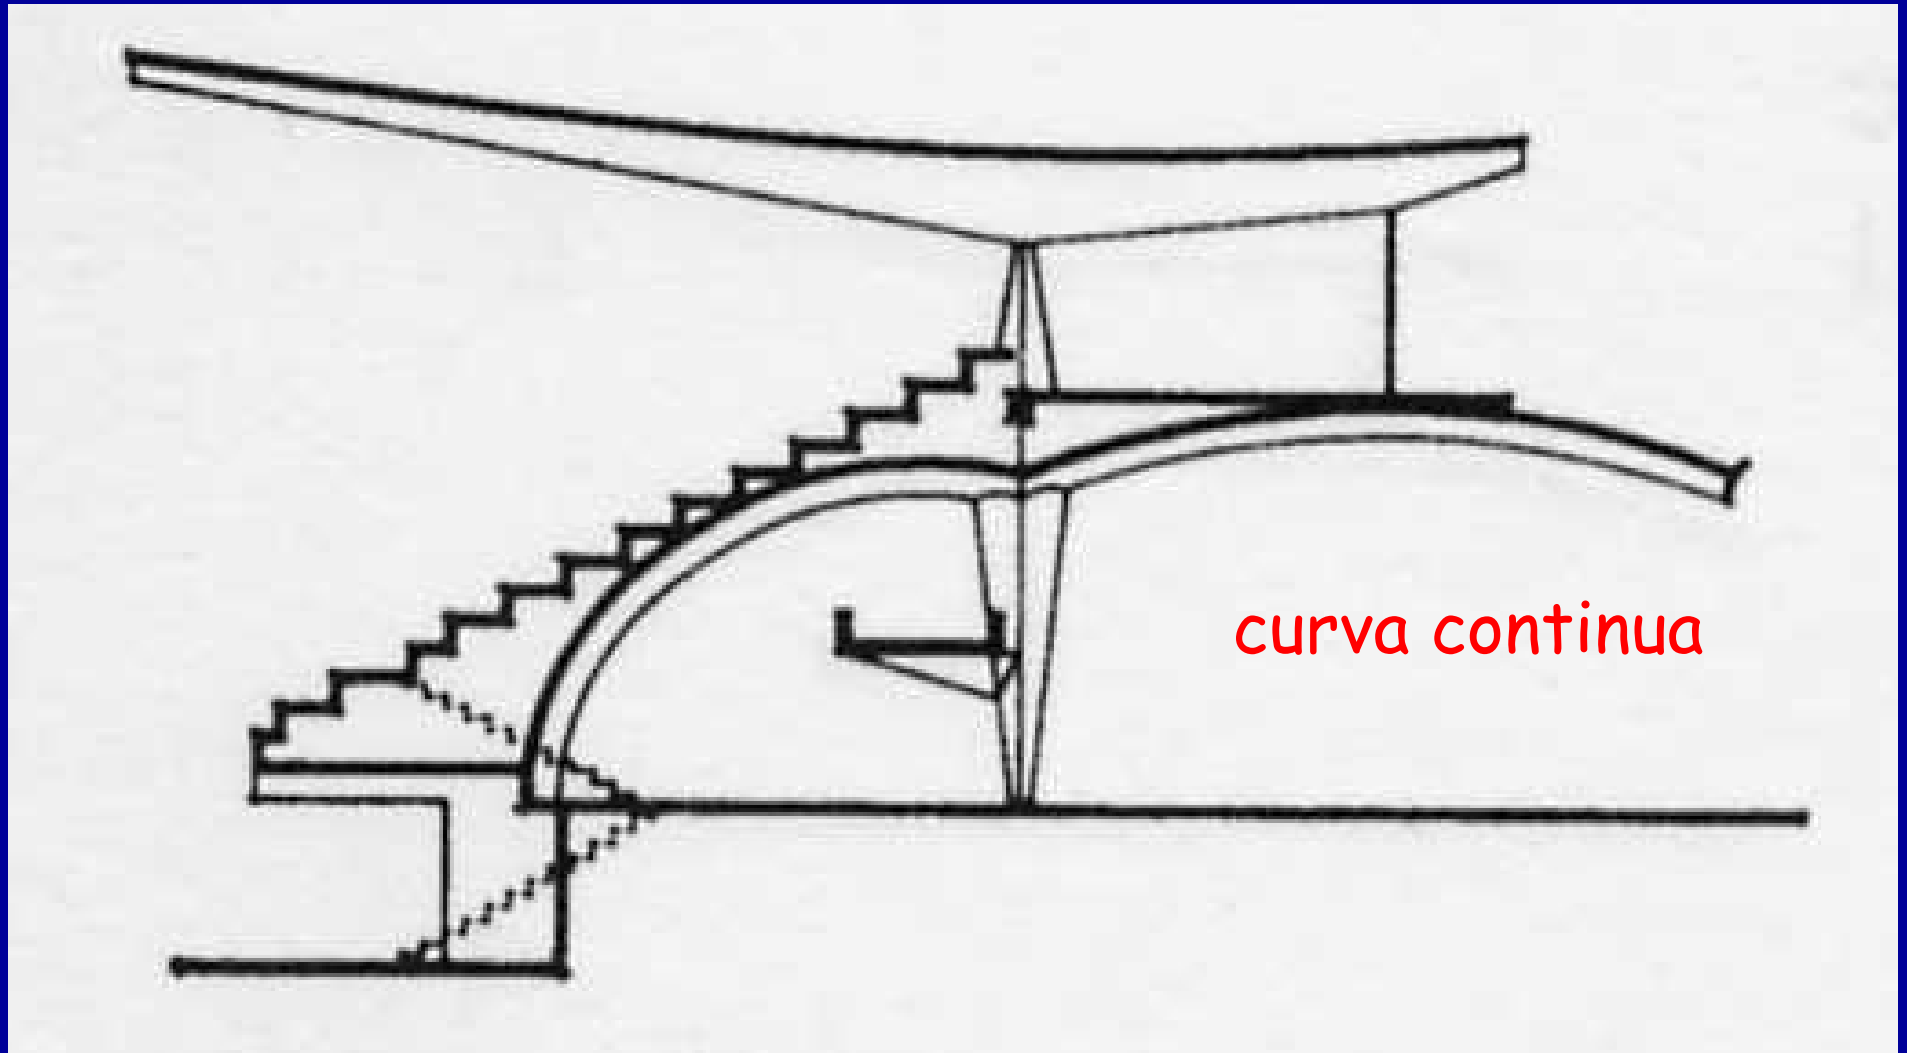

bilanciare il carico
con un contrappeso

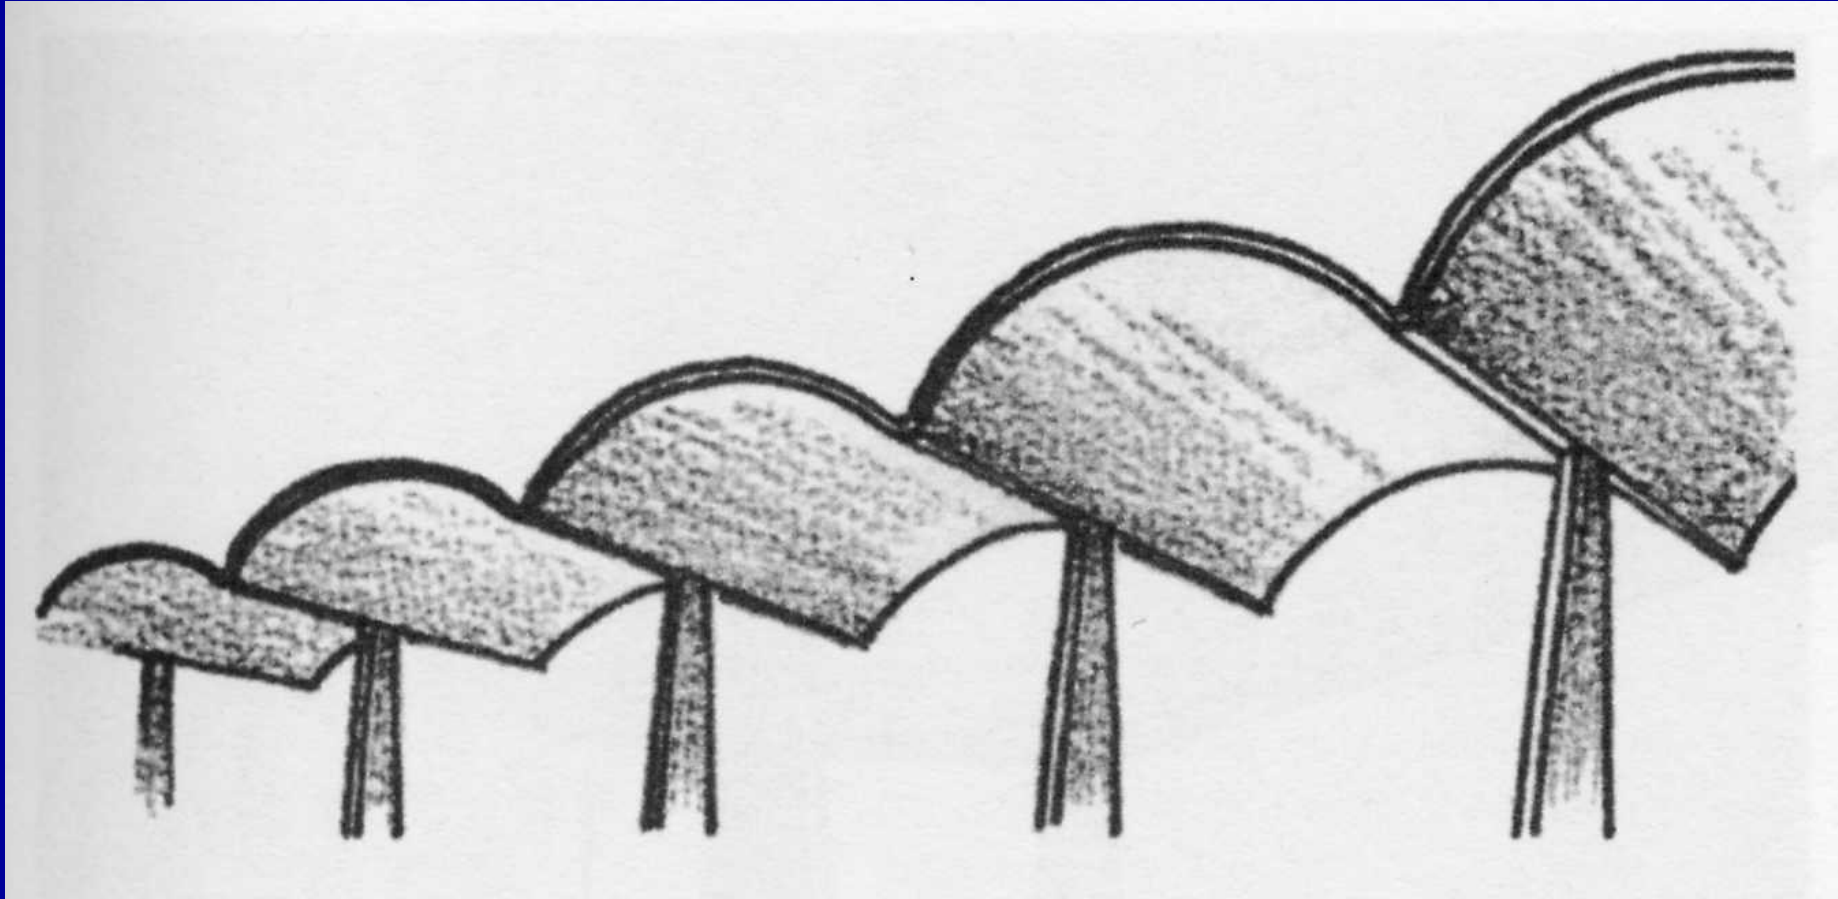

Evoluzione: spessori variabili in funzione del momento

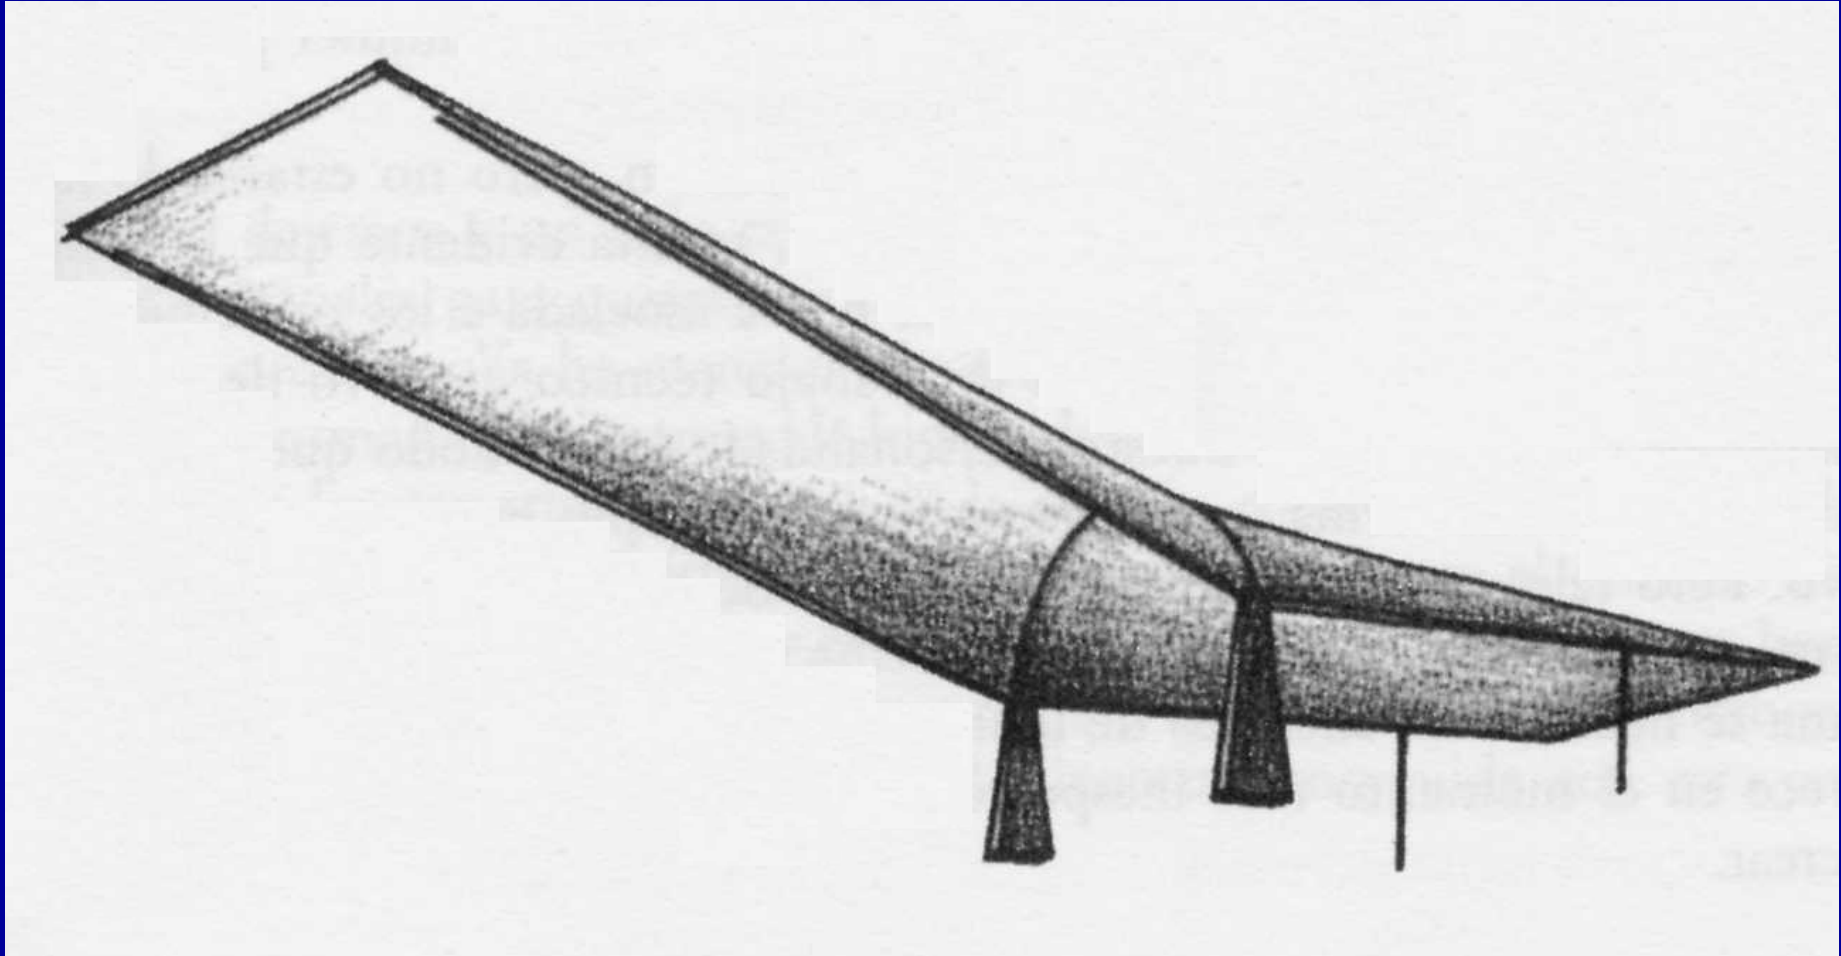

Evoluzione: spessori variabili in
funzione del momento

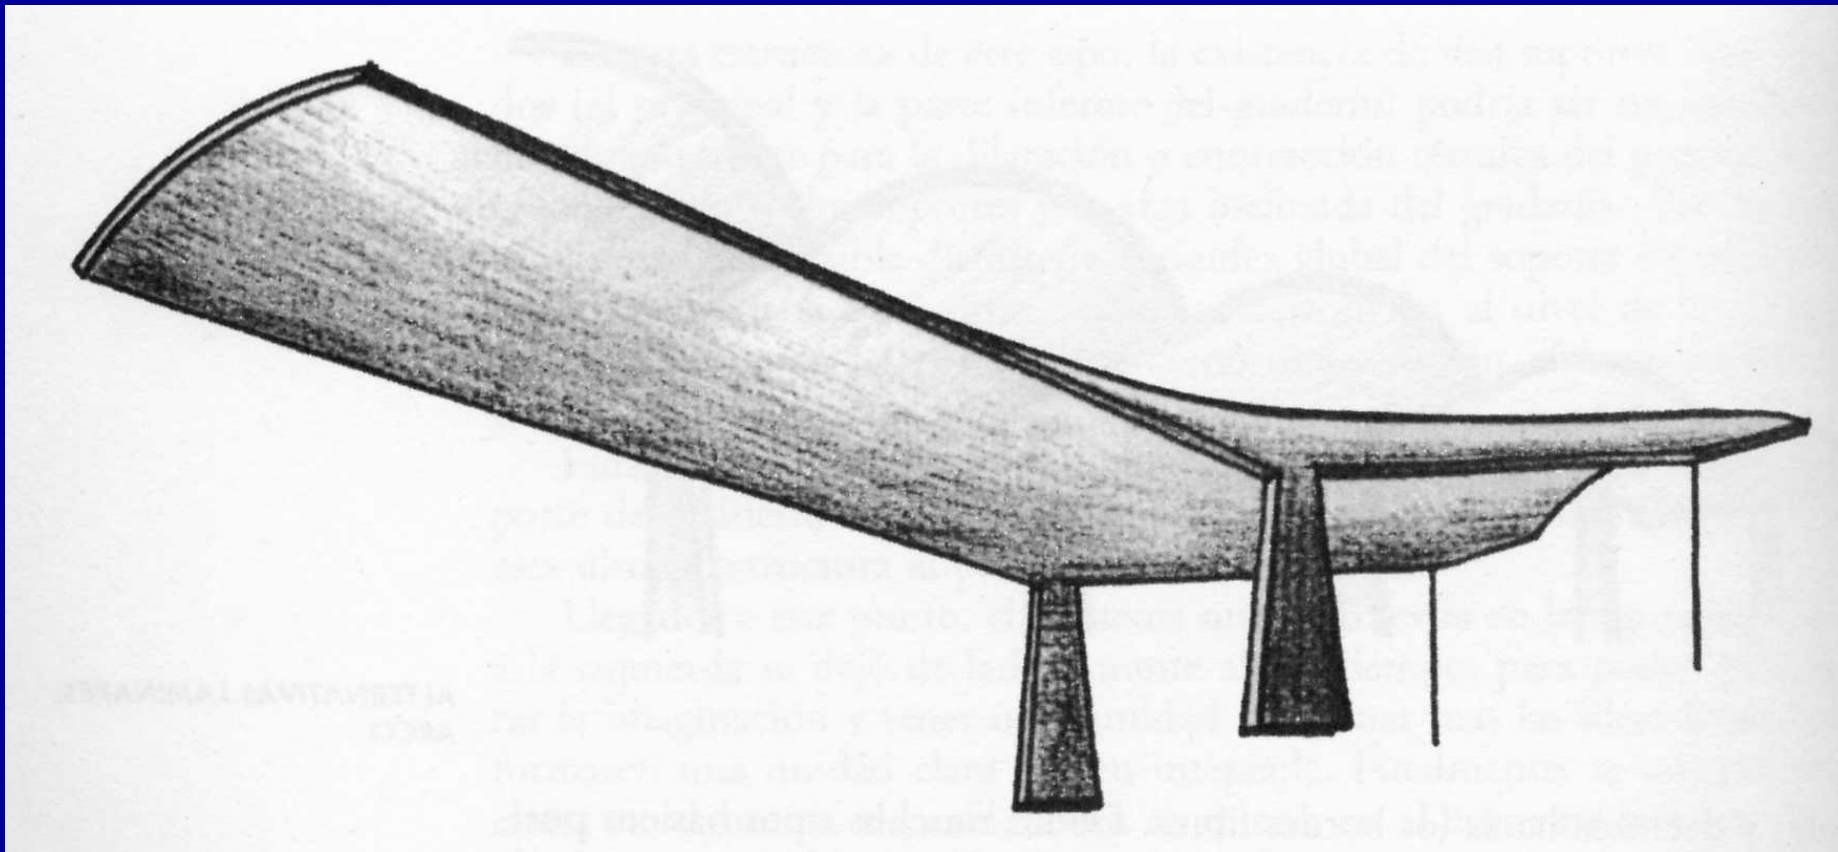

Struttura curva → copertura curva

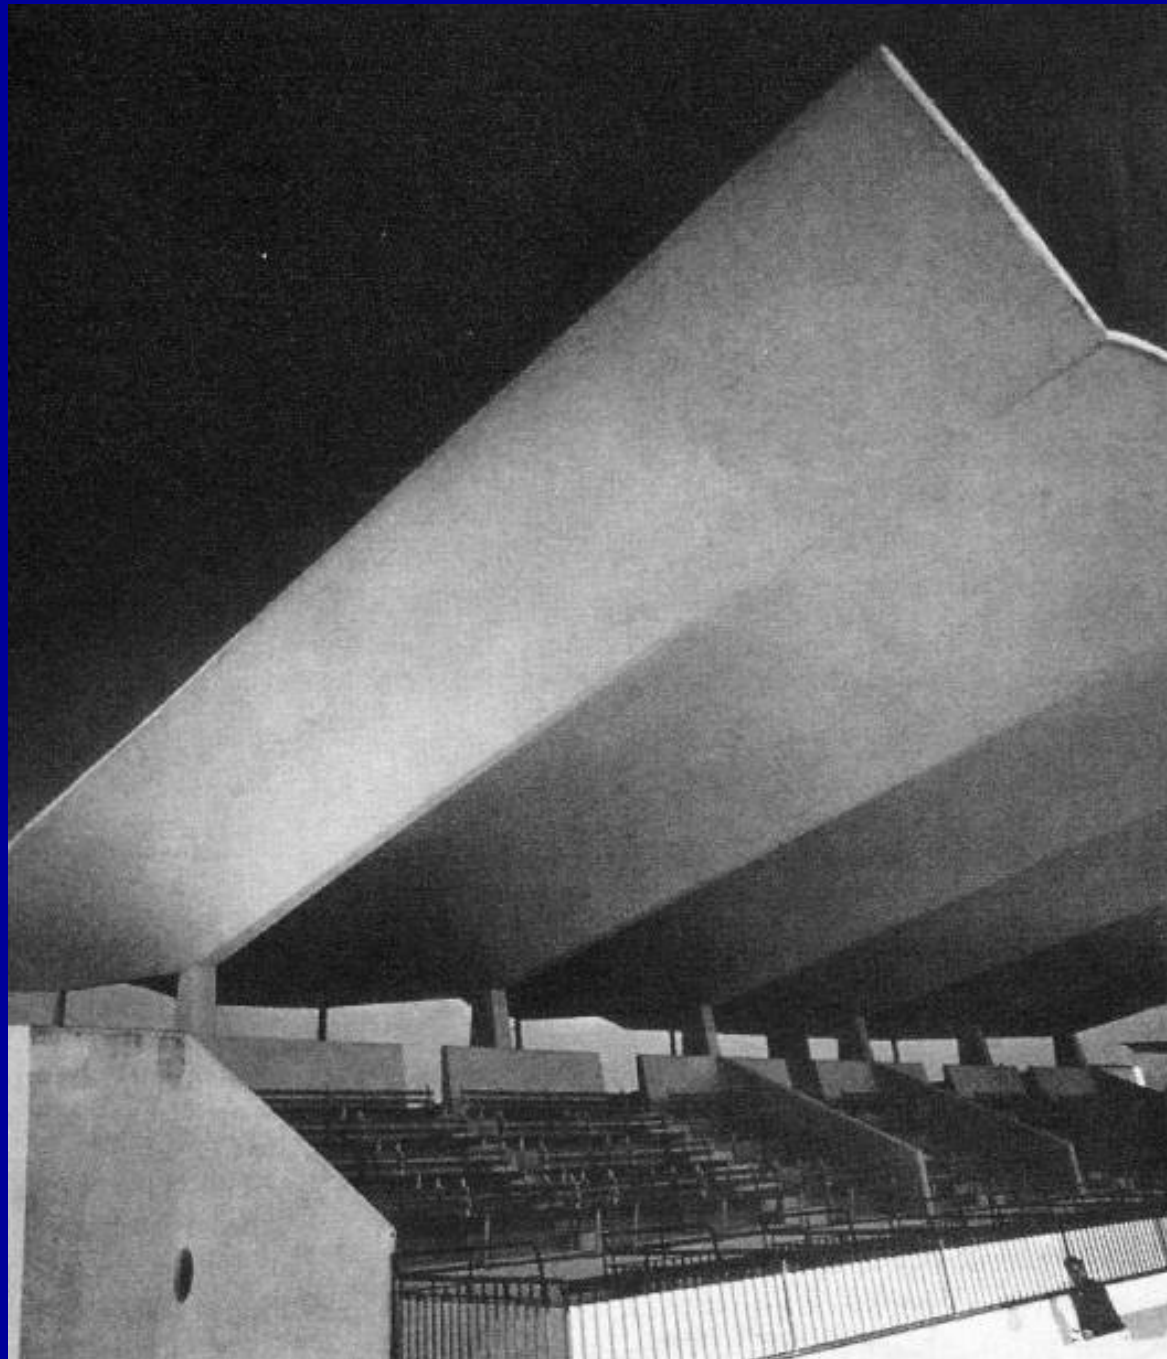

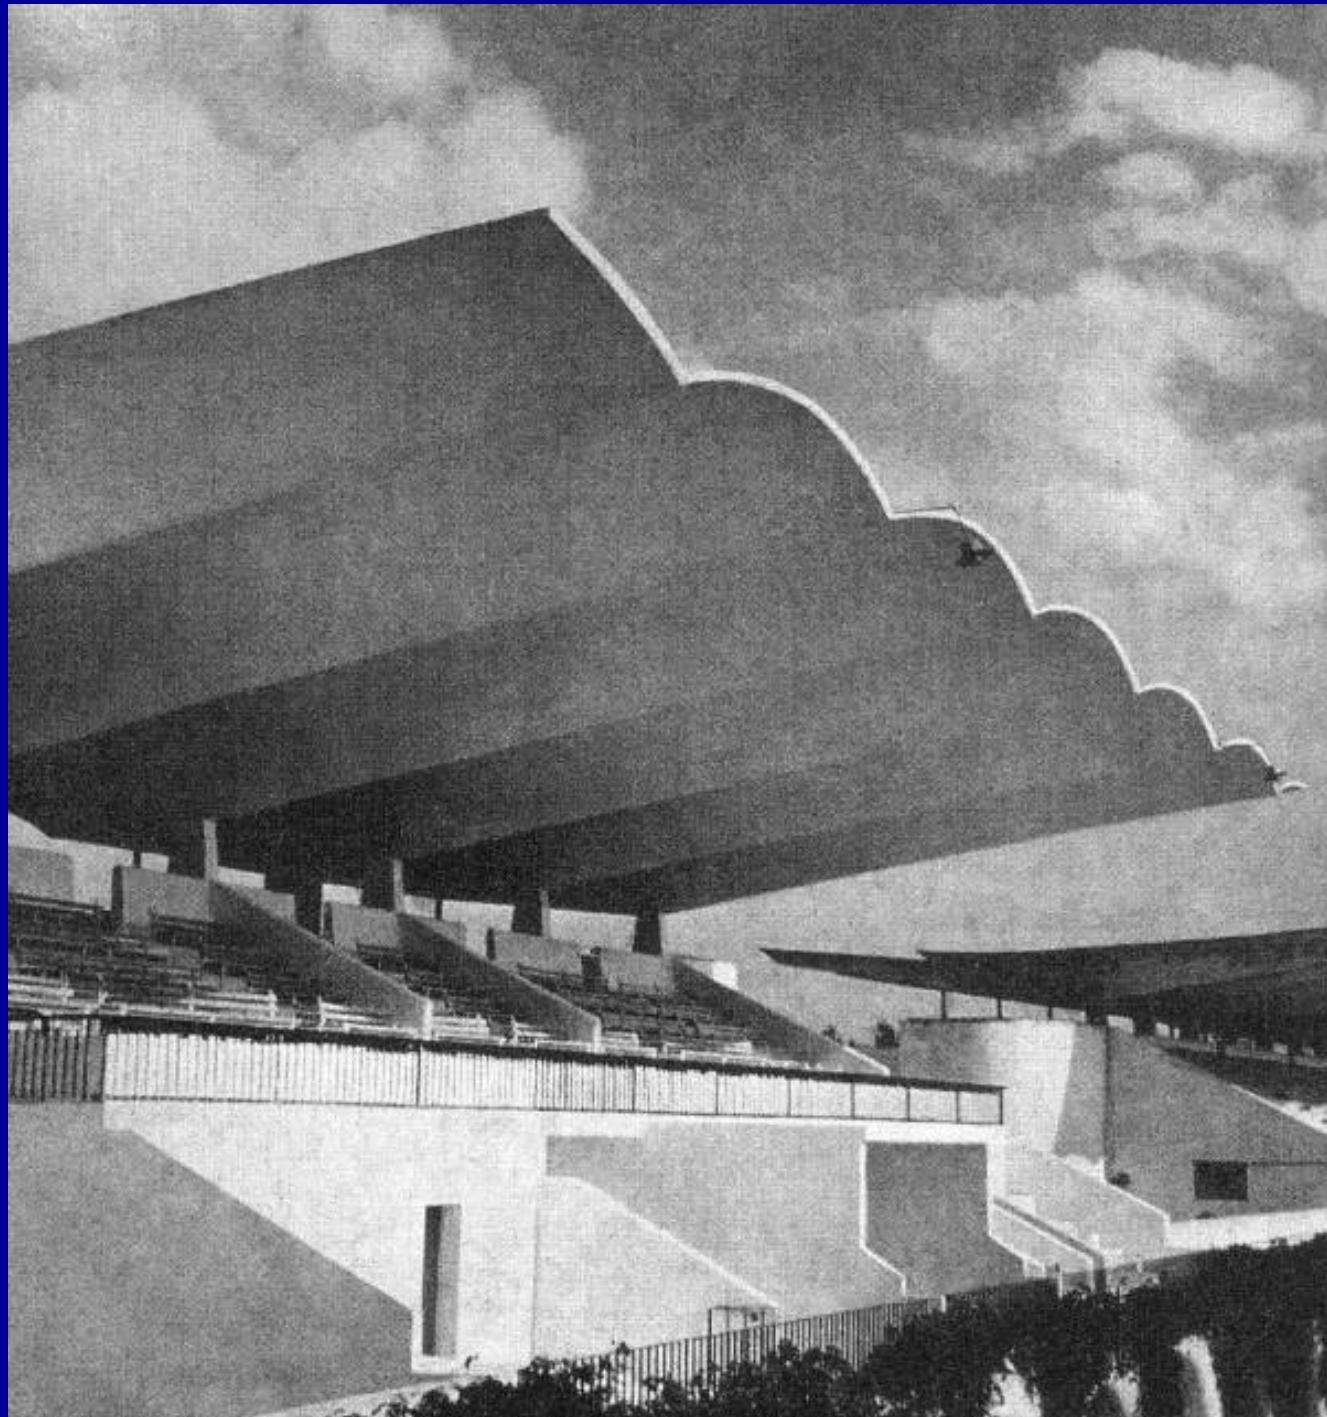

Struttura curva → copertura curva

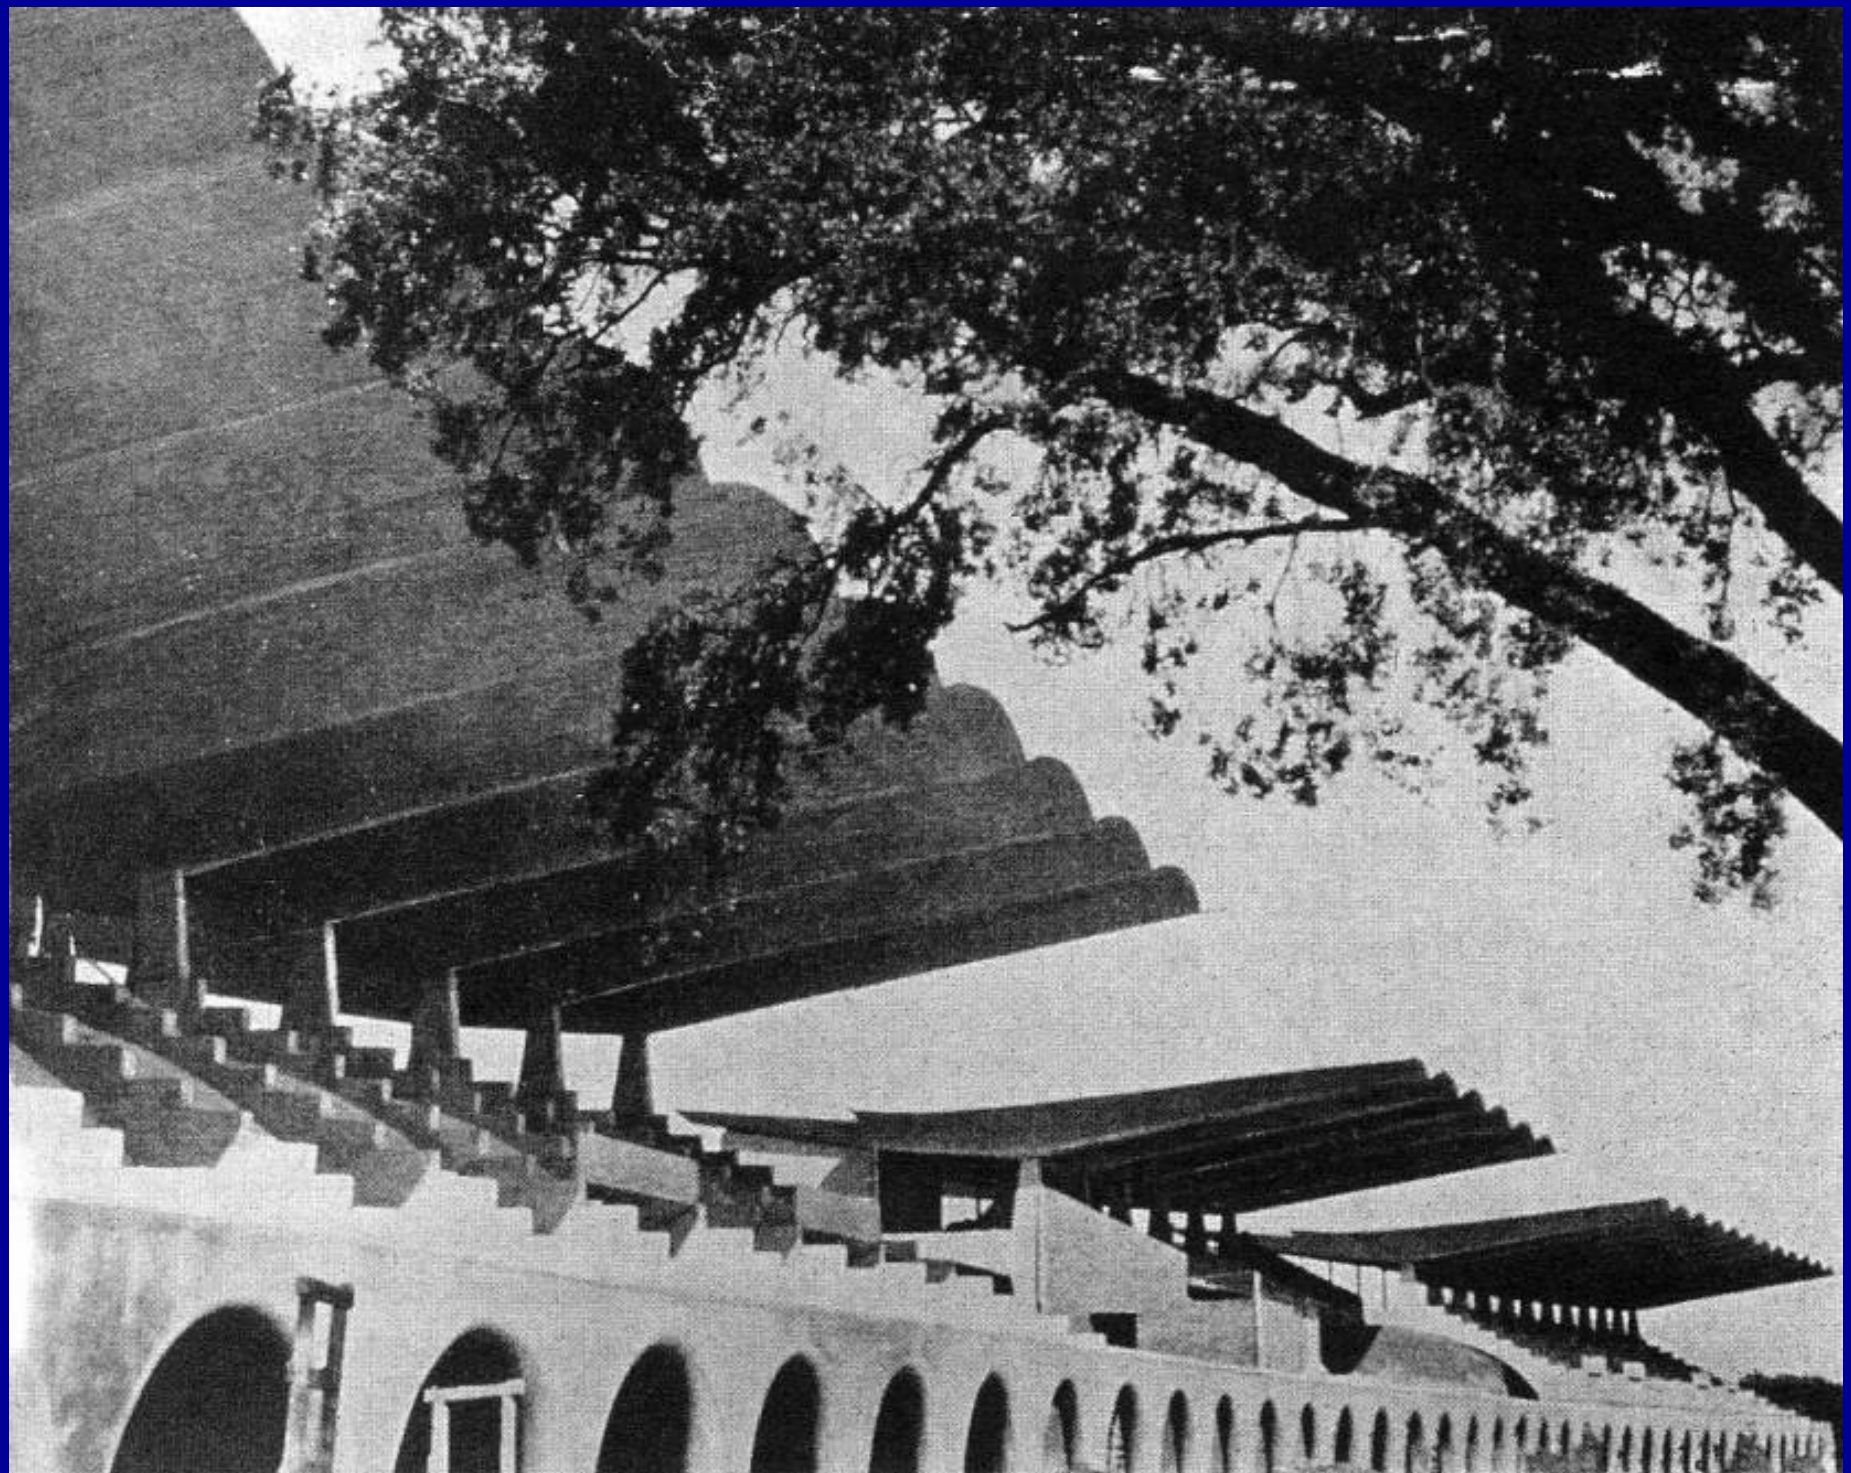

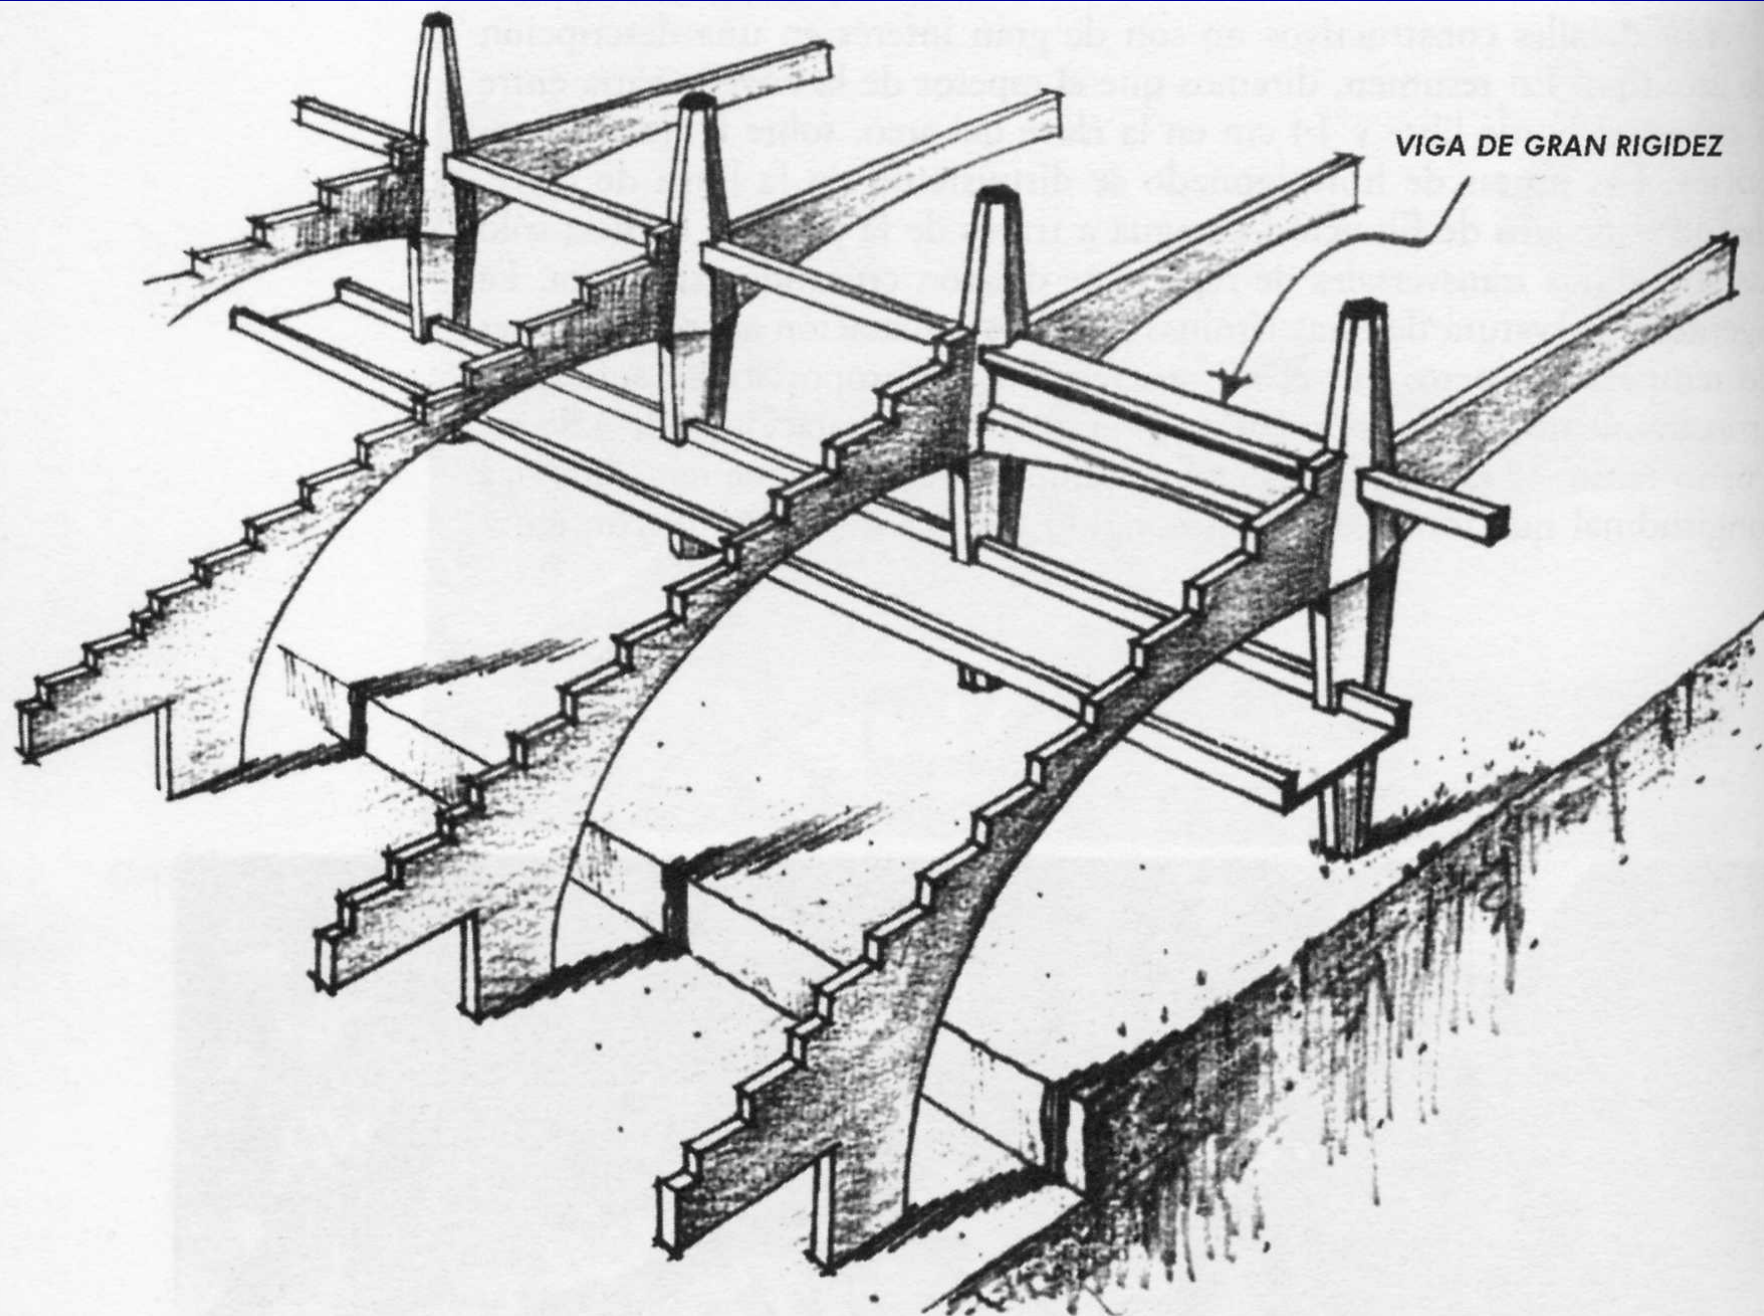

Struttura curva → copertura curva

FINE
